Kolkata

SUMMARY

Site Reliability Engineer with **3 years** of experience in **cloud infrastructure, automation, and system reliability**. Skilled in **Terraform, Linux, and cloud infrastructure** management. Experienced in resolving technical issues, providing customer support for **Azure-based** platforms, and maintaining **99% SLA** compliance. **Automated** infrastructure deployments using **Terraform and Ansible**, and **CI/CD pipelines**. Experienced in monitoring, incident management, performance optimization, and ensuring high availability systems. Passionate about **automation, reliability engineering, and scalable** infrastructure.

SKILLS

- Cloud Platforms ⇒ Microsoft Azure
- Infrastructure as Code ⇒ Terraform, Ansible
- Version Control ⇒ Git, GitHub
- Scripting ⇒ Shell Scripting
- Operating Systems ⇒ Linux, Windows
- Observability ⇒ Azure monitor
- Networking Concepts & DNS ⇒ VLANs, IP, DNS, Load Balancing
- Communications ⇒ English, Hindi and Bengali as native

EXPERIENCE

Wipro

03/2023 - Present Kolkata

Site Reliability Engineer

- Managed and maintained **cloud** and **Linux-based** infrastructure, ensuring **high availability, performance, and reliability** of production systems.
- Built and maintained Infrastructure as Code using **Terraform** to provision and manage cloud **resources, reducing** manual configuration effort by **40%** and improving infrastructure deployment reliability.
- Built and maintained **Ansible playbooks** for automated configuration management and **deployments**, reducing manual operational tasks by **30-40%** and improving infrastructure **consistency and reliability**.
- Worked with **Git** for **version control**, ensuring streamlined code review and **branching** processes.
- Managed **20+ Linux servers**, handling **software installation, user management, and security** - boosting security by **25%**.
- Maintained **15+ Windows servers**, troubleshooting issues and ensuring system stability.
- Monitored **100+ servers**, proactively identifying root causes of incidents and ensuring **99.9% uptime**.
- Automated** operational workflows, alerts, approval processes, and notification systems using **Microsoft Power Automate** integrated with **Microsoft 365** and **Azure services**, reducing manual operational tasks and improving process efficiency
- Participated in **on-call rotations** for **24/7 operational support** and immediate issue resolution.
- Collaborated with **Product, Engineering, QA, and Operations** teams to enhance platform performance and user experience.
- Resolved **100+ INCs and REQs** via **ServiceNow**, ensuring quick response times, **SLA and OLA** targets.
- Managed **Change Tasks** and participated in **Change Management processes**, documenting issues and improvements.

CERTIFICATIONS

-  Azure fundamental (AZ -900)
-  GitHub Copilot for Technical L1+L2+ L3 (by Wipro)
-  Azure Administrators (AZ-104)
